

LitePOWER[®]

Sprinter / 140KW Generator

...the stealth generator

1100 Amps Prime Power @ 120Volts

Unmodified LitePOWER 140kw Movie Quiet[®] Generator mounted inside of 3500 Sprinter Van (low roof, short wheel base version) provides prime power for your location without having to "hide" the generator. No visible modifications to outside of Sprinter. Operates with all doors closed for inconspicuous operation. Less than 50 db(A) @ 50 feet means your soundman will be happy.
